Tatchme anti-aging products revitalize skin while appealing to emotion

Ever notice how the rigors of stress or a lack of sleep shows up on your skin? Skin is a barometer of your emotions, so it's important to keep a balance between skin care and well being. Tatchme anti-aging products address both your skin and the emotions that trigger those ill effects.

Tatchme line of anti-aging products began with the discovery of hematite, a stone with beneficial virtues. The search for the best hematite lead to Portofino, Italy where the rough black mineral was collected. After research and analysis, it was transformed into a rich mineral complex that now makes up the heart of the Tatchme collection.

Tatchme combines powerful anti-aging properties with emotion enhancing aromatherapy. Tatchme offers two collections; Energy and Relax. The relax collection is enriched with Hedychium Spicatum, an essential extract, and infused with hematite to restore skin to its utmost beauty while reflecting your inner sense of peace.

The Energy collection will boost your skin's vitality while recharging your mind with positive energy. Enriched with Levisticum Officinale essential oil and infused with hematite, the combination will noticeably improve and energize your skin, enabling it to rebound from damaging stress.
